Ecology

The ecology minor is intended to complement other environmental majors and help students develop the skills to use ecological science to address a wide range of environmental issues.

- BI 2004 Population and Community Ecology
- BI 3423 Evolution and Population Genetics
- BI 4423 Ecosystem Ecology

Three of the following:
- BI 2033 Marine Biology
- BI 2053 Systematic Botany
- BI 3063 Agroecology
- BI 3173 Animal Behavior
- BI 3214 Biology of Plants
- BI 3233 Ichthyology
- BI 3253 Invertebrate Zoology
- BI 3263 Special Topics in Biology
- BI 3273 Mammalogy
- BI 3283 Ornithology
- BI 3293 Entomology
- BI 3323 Conservation Biology
- BI 3654 Microbiology
- BI 4013 Marine Ecology
- ES 3183 Limnology
- GL 3433 Soil Science
- MA 3263 Biometry
- WF 3013 Population Assessment and Mgmt

An academic minor is a specified sequence of courses totaling 18 to 24 credits and requiring at least nine credits of 3000 or 4000 level work. Twelve of the credits must be outside of your major degree requirements. Students are limited to declaring one minor in addition to their major(s). Minors do not lead to a degree. No substitution or waiver of courses in a minor is allowed. The college does not guarantee courses for a minor.
