FINANCIAL AID POLICIES AND CONDITIONS OF THIS AWARD

- 1.** The primary purpose of the Financial Aid Office is to provide financial assistance within its resources to those eligible students, who without such aid would be unable to attend Unity College.
- 2.** The philosophy of financial aid assumes that the parents and student have the primary obligation to provide for college education.
- 3.** A student's financial need is determined by subtracting the expected family contribution from the total cost of attendance. The total resources available will never exceed the cost of attendance.
- 4.** This financial aid award will be void if and when incorrect information is revealed and/or additional resources are made available. The applicant may be liable for a fine, imprisonment or both, according to the U.S. criminal code if intentionally false statements or misrepresentation are found on application materials.
- 5.** Students must be in good academic standing and making normal progress toward a degree to continue eligibility for these programs. If a student drops below full-time (12 Credit Hours), the status of these awards will change. Students must report any change in academic status to the Financial Aid Office.
- 6.** Any change in a student's enrollment, financial, residential (on campus, off campus, housing or meal plan) must be reported to the Financial Aid Office. The student will be notified of any resulting change in award status.
- 7.** Aid is granted for one academic year only. Aid for subsequent years will be granted only if all renewal application materials are filed. Application materials may be obtained in the Financial Aid Office.
- 8.** All aid recipients must apply for all aid for which they may be eligible, such as state scholarships from their state of residence. Unity College cannot replace with College funds any assistance for which a student is eligible but fails to apply.
- 9.** Federal guidelines require comprehensive refund calculations for students who withdraw prior to completing a particular semester's enrollment. These procedures vary based on term of enrollment and timing of withdrawal. Questions about these procedures should be directed to the Financial Aid Office, which can provide detailed information regarding those procedures.
- 10.** Aid allocations are made on the assumption that a student is receiving no additional assistance such as outside scholarships (state, as well as private), loans or tuition remission other than noted on the award letter. Failure to report aid received from an outside source is cause for cancellation of College awarded aid. Notification of any additional sources of funding will require a review of the student's financial aid award. Any necessary adjustments will be made in accordance with institutional policy, and federal regulations. The student will be notified of any changes made to an existing award.
