RELEVANT COURSEWORK

Courtroom Procedure and Evidence

- Learned about judicial structure, process and procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court.

Introduction to Conservation Law Enforcement

- Explored the dual role of the modern conservation officer as law enforcement officer and protector of our natural resources.

Firearms Training

- Handled, used, and maintained firearms. Learned about loading techniques, cleaning methods, and inspection procedures of service weapons used by law enforcement agencies.

Community Relations and Ethics

- Learned about the cooperation and interaction that occurs between various law enforcement agencies and communities or populations they serve; giving special consideration to customs, race, gender and unique circumstances. In addition, consider ethical and accepted standards found within various enforcement organizations.

Crime Scene and Investigative Techniques

- Practiced special techniques employed in investigative interviews and interrogations, including interpretation of verbal and physical behavior and legal perspectives. Introduced to theories and fundamentals of the investigative process.
