Job Description

Are you ready for an **adventure**? Since 1979, **Mountain Workshop** has been providing school aged children with a variety of Adventure Education and Experiential Education programming. For 6 months of every year, Mountain Workshop exposes nearly 3,000 8-17 year olds to a variety of outdoor endeavors, including but not limited to: canoeing, kayaking, rafting, rock climbing, hiking, caving, group team building initiatives, orienteering, backpacking, high and low ropes, and survival skills. Our **Field Staff** are responsible for co-leading these participants in spectacular wilderness settings throughout the Northeast—making even the hardest day on the job well worth the amazing experience. Our season runs May through October, with full season and “shoulder season” positions available. Benefits to our **Field Staff** include competitive per diem rates, meals for all overnight trips, pro deal purchases and extensive training.

Job Requirements

Applicants should possess 3-5 years of facilitation experience in an outdoor setting, a personal commitment to the fields of AE and EE, and the ability to positively engage children in a variety of settings. **Applications** are accepted on a rolling basis, although priority will go to staff that apply early and commit to a full season. Become a member of the Mountain Workshop Team and seize the opportunity to share with others the joy of being active in the great outdoors!
