UNITY COLLEGE CRISIS MANAGEMENT PLAN

I. CRISIS MANAGEMENT PLAN MISSION STATEMENT

Unity College is committed to the health, well-being and safety of its employees, students and visitors on our campus during emerging crises. Unity College seeks to minimize danger to life and safety resulting from the effects of an accident, a natural disaster or civil disturbance. This Crisis Management Plan is intended to establish a Unity College Crisis Management Team that is able and ready to respond when such an emergency condition arises.

II. PURPOSE

This Crisis Management Plan (CMP) is prepared by Unity College, to provide a structured crisis response plan for use in the event of a crisis or traumatic incident, to ensure that college operations are stabilized and affected employees and students recover in a timely and healthy manner. The Plan describes the responsibilities of the Crisis Management Team and information necessary for them to request additional assistance from the community. The Plan also outlines use of the UC Alert System.

The Plan provides general background information pertinent to the College, its location, potential hazards, emergency response organization, and responsibilities for interaction with the community in an emergency.

III. POLICY

Numerous crisis situations may arise on any college campus. These crisis situations range from natural disasters to civil disturbances. Stress and confusion are normal responses in any crisis; therefore, the timely and efficient implementation of the Crisis Management Plan will assure clear direction and continuity of control for key personnel. The response of the Crisis Management Team should always be consistent. The Crisis Management Plan (CMP) and Crisis Management Team (CMT) will normally be activated only during an actual or imminent crisis.

The procedures in this plan spell out how the institution and staff will respond to emergencies. For some emergencies, specific checklists have been developed and are included. Emergency steps may include, but are not be limited to, warning employees, students, guests and other personnel on campus; communicating with personnel and community responders; conducting an evacuation and accounting for all persons in the facility; managing response activities; activating and operating an emergency operations center; fighting fires; shutting down operations; protecting vital records; and restoring operations.

IV. TERMS & DEFINITIONS

CAMPUS EMERGENCY
Any emergency that might endanger the lives, health, well-being and/or safety of the Unity College population or jeopardizes the habitation of its facilities.

COMMUNITY EMERGENCY

**Crisis Management Team (CMT)**

Individuals listed in this policy who will direct the College through a disaster or civil disturbance.

**Emergency Warning System**

Warning of danger may come via the nation’s Emergency Warning System, which broadcasts over television and radio. When the Crisis Management Plan (CMP) is implemented by the President, key CMT members or their designated representative will begin the first stage of the Crisis Management Plan.

**Senior Staff**

**UC Alert**

Any individual message sent out through the UC Alert System.

**V. UC Alert System**

Unity College maintains a text-based alert system to provide information and instruction to the Unity College community and college guests regarding emerging situations that require a disruption of normal college operation.

Emergency alerts will be sent and notification made on official college social media accounts unless notifications and alerts will likely worsen or compromise efforts to contain the emergency.

All uses of the UC Alert System, beyond emergency alerts as outlined in this document, are prohibited.

**A. UC Alert Steps**

Each emergency event resulting in deployment of the UC Alert System can be described in three phases with associated actions.

i. **Phase I: Critical or Impending Emergency**

**Key Steps:**

1. Establish authority to launch alert (check list of authorized personnel below)
2. Confirm the emergency (with first responders, first-hand accounts, etc.)
3. Identify urgency level (is it Critical or Impending? See below for criteria)

**If Critical:** Launch UC Alert immediately (See below for content protocol)
UNITY COLLEGE CRISIS MANAGEMENT PLAN

THEN notify the Crisis Management Team through the UC Alert System using “Crisis Management Team Alert Notice” template, or notify any CMT member in any other way possible.

IF IMPENDING: Notify the Crisis Management Team through the UC Alert System using “Crisis Management Team Callout” template, or notify any CMT member in any other way possible.

ii. Phase II: Ongoing Emergency (to be managed by Crisis Management Team as possible)

KEY STEPS:
1. Provide status updates
2. Provide follow up actions

iii. Phase III: Resolved Emergency (to be managed by Crisis Management Team)

KEY STEPS:
1. Provide status update
2. Launch “Emergency Over” all clear alert

B. UC ALERT CONTENT

Once authorized, each UC Alert should include the following information or use an existing template within the Rave Alert System when possible.

1. The urgency level of the emergency (CRITICAL or IMPENDING)
2. The general nature of the emergency (e.g., “flooding,” “fire,” “bomb threat,” “active shooter,” and “civil unrest”)
3. The location of the emergency (e.g., “Koons Hall,” “McKay Farm,” “Flagship Campus,” “outside the library,” etc.)
4. Action to be taken by recipients (e.g., “shelter in place,” “evacuate the building,” “avoid the flagship campus,” “run, hide, fight,” etc.)

Who to send to? The individual authorizing the alert must ensure that each UC Alert is sent to the appropriate recipient list. When in doubt, all UC Alerts should go to every member of the college community.

C. AUTHORIZATION TO LAUNCH

Responsibility for initiating UC Alerts during or in anticipation of an emergency is designated to certain employees.

i. The individual authorizing the launch may authorize another individual to execute the UC Alert launch.

ii. UC Alert Launch Authority: The members with launch decision authority are, in order of priority:
1. President
2. Chief of Staff
3. Chief Officers
4. Director of Human Resources
5. Director of Public Safety
6. Dean of Students
7. Highest ranking Public Safety Officer on site or available by phone
8. Highest ranking campus administrator or full time Residence Life staff on site

NOTE: List members 1-6 are permitted to authorize UC Alert Launch for either Critical or Impending Emergencies, with or without consultation of members of...
D. URGENCY LEVEL: CRITICAL OR IMPENDING?
   i. CRITICAL EMERGENCY — what is a critical emergency?
      1. TIMING: A critical emergency is a current, ongoing, emerging or imminent threat and requires action within minutes in order to provide timely notification.
      2. SEVERITY: A critical emergency is severe or has the potential to grow severe, or presents a risk of death or serious injury to community members.
   ii. AN IMPENDING EMERGENCY is one that will likely occur in the future, such as predicted hazardous conditions, predictable eventualities, or threats articulated.

E. NOTES ON USE OF THE UC ALERT SYSTEM
   i. No communication should be made beyond the alert channels by anyone other than the appropriate members of the Crisis Management Team.
   ii. Once notified, the Crisis Management Team is authorized and responsible for issuing any follow up information.
   iii. Until the Crisis Management Team has been notified and has assumed responsibility, individuals authorizing alerts are responsible for sending follow up messages as necessary with further information updating the community.
   iv. Any significant change to the emergency situation, protective actions needed, or behavior by members of the community should be sent via a follow up alert using all of the same channels used in the initial alert. If significant time has passed but the emergency situation still remains active, an update should be sent reminding recipients of the appropriate actions to take.
   v. Once a UC Alert has been launched, only the Crisis Management Team is authorized to issue an “All Clear” message when an emergency situation has been resolved and any danger has passed.

Contact Public Safety (x 232 or 509.7232) who will send a UC Alert as appropriate and notify the CMT (Crisis Management Team).

C. SEVERE WINTER STORM OR BLIZZARD

A decision to close the college because of inclement weather may occur at times.

If a weather emergency occurs in the early morning hours, a decision to close the campus or delay an opening will be made by 5:30 a.m., by the Dean of Students. If a weather emergency occurs later in the day, the determination for an early closure will be made as appropriate.

The announcement of the closure will be done by an authorized college official in the following venues:

i. sent to the Unity College community through the UC Alert System
ii. announced on the college’s critical alert (weather) phone (207) 509-7207 system, and
iii. on the following media outlets:
   a. WABI - Channel 5 (Bangor Station)
   b. WWME - 92 Moose FM

UC Alert for Weather Closure: The Dean of Students has the responsibility and is authorized to make a determination and send UC Alert in response to environmental conditions, following the procedures outlined in the Weather-related Cancellation Policy. Alerts related to weather cancellation will utilize templates created to ensure consistency and reduce confusion. If a weather condition creates an Critical or Impending emergency as defined above, then follow that procedure.

D. LIGHTNING STRIKE

If someone has been struck by lightning notify Public Safety immediately (x 232 or 509.7232).

E. BOMB THREAT (See Appendices, Pages 3 and 4, for additional information)

Sound the alarm, call 911, and evacuate the premises following Evacuation Plan. (SECTION IX)

Following an evacuation, no one should re-enter any buildings until officials declare the area safe.

F. GENERAL RESPONSE TO NATURAL DISASTERS

i. Retain all students, staff, and visitors inside the building.
ii. Seek shelter in the lowest levels of buildings or an interior hallway, remaining clear of exterior windows and doors.
iii. If it is safe to do so, evacuate rooms having large roof spans (gym, etc.) or those that are located where they will receive the full force of the wind.

UNITY COLLEGE CRISIS MANAGEMENT PLAN

IX. Shut off all electrical utilities. When services are restored, check the effects of the storm on the facilities (broken windows, safety hazards, refrigeration, clocks, etc.).

X. Provide status reports on a regular basis to the CFMO.

G. HAZARDOUS MATERIALS ACCIDENT

Hazardous materials are substances that are flammable or combustible, explosive, toxic, noxious, corrosive, oxidizable, an irritant, or radioactive. A hazardous materials accident can occur on site (i.e., spill of some corrosive material or broken gas line) or near enough to the campus to be a potential hazard (i.e., highway accident causing a spill of some highly toxic materials or release of some toxic gases into the air from an industrial accident or fire).

Some hazardous materials accidents will be minor and only involve the immediate evacuation of a site and others may be large enough to necessitate relocating all students, staff, and other persons to either a safer location on campus site or to an evacuation area away from the site. The nature, severity, and potential for health injury of the hazardous materials accident will determine the type of response required.

Whatever the severity of the hazardous materials accident, college personnel should not attempt to take it upon themselves to remove a known or possibly hazardous chemical or substance. There are personnel trained and equipped to do so.

On-Site Chemical Accidents

In the case of a chemical accident on campus or if the college wants to have a possible hazardous chemical removed, contact Public Safety (x 232 or 509.7232).

Off-Site Chemical Accidents

i. It is anticipated that major chemical accidents may occur off site, probably on nearby major streets and highways, as well as nearby industrial areas. Chemical accidents of disaster magnitude would probably be the result of a tank truck, railroad, or industrial accident by the release of large quantities of toxic gases. In these instances the College will probably be contacted directly by the police and/or fire departments. When evacuation of the area is necessary, College personnel will probably be directed to a specific relocation area by the local response agencies involved (fire, police, etc.)

ii. These are some actions/considerations to be addressed in the case of a major chemical accident posing a potential hazard to the College:

   1. As appropriate, contact Public Safety (x 232 or 509.7232).
   2. Determine the need to remain inside/outside.
   3. Determine whether students and staff should leave College grounds.
   4. Maintain safety of employees, students, and visitors in a secure area.
   5. Render first aid, as necessary.
   6. Return to site/building after government agency officials (fire department/police/Hazardous Materials Team) have declared area safe.

H. POWER FAILURE

The response procedures are dependent upon whether we have or do not have advance warning and whether classes are in session or not in session.

Power outage with or without advance warning will be communicated from the CFMO to IT, Central Maine Power, and to the President's Office.

  CMP: 800-696-1000 (outages or trouble)
  866-565-3181 (normal hours)
Announcements of an administrative closing due to power failure with advance notice or without will be on the following radio and television stations:

i. Radio: WMME 92 Moose (92.3 FM)
ii. Television: Channel 5 (WABI-TV)
iii. Additionally an email message, if possible, will be sent by the Associate Director of Media Relations to employee and student distribution lists and the campus voice mail system will be revised to reflect the closing.

I. NON-EMERGENCY VIOLENT THREAT

This plan addresses threats of violence towards the school or personnel. At each stage, the Crisis Management Team will follow the instructions and advice of law enforcement personnel, which may alter the procedures laid out in this section.

i. Initial Response
   1. Upon receipt of a non-emergency threat:
      a. The Crisis Management Team will be convened in Founders Hall North Conference Room
      b. The CMT will contact local law enforcement and request counsel and, as appropriate, that they respond
      c. Student services personnel (defined below) will relocate to Wyman Commons and Founders Hall South
      d. The CMT or designee will issue a campus-wide lock down order

ii. Lock Down
   1. Issued via UC Alert and campus phone public address system
   2. Classes and normal operations are cancelled
      a. Employees without assigned responsibilities in this plan are sent home
      b. Commuter students are asked to go home and check in via UC Alert System
   3. Public Safety immediately ceases the check out of any weapons from their storage and provides the CMT with a list of weapons currently checked out and by whom
   4. Residential students on campus return to their room and stay inside until lock down is lifted
      a. Cottage residents lock down in TerraHaus
      b. Residential students off campus at the time of the lock down will be instructed to stay clear of campus until they receive further instructions
   5. Occupied buildings are staffed and secured
      a. Each residence hall will have two assigned staff members plus the associated Resident Advisors to check in residents
      b. Any missing students should be communicated to the Dean of Students
      c. Law enforcement and Public Safety conduct room to room searches and building sweeps to confirm that the building is safe.
      d. Law enforcement officers are stationed at all entrances to occupied buildings to check entrants and prevent exit
   6. Unoccupied buildings are swept for hazards but not secured
   7. Campus grounds are searched for hazards
   8. Major entrances to campus become checkpoints

After providing for immediate lock down, the CMT, in consultation with law enforcement, will plan for how to proceed until the threat is confirmed cleared.
iii. **Option A: Extended Lock Down (2-8 hours)**
